ADDI CHRONO  
22 JUNE 84

DDI #03641-84  
22 June 1984

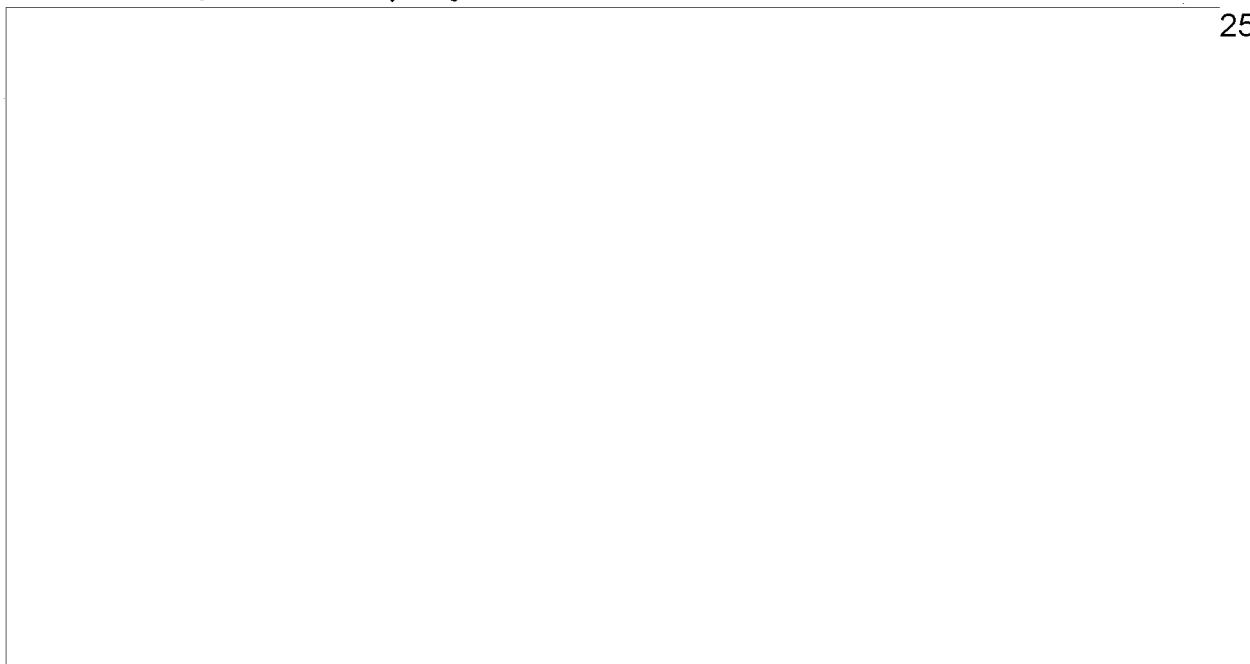

NOTE FOR: Associate Deputy Director for Intelligence

FROM : DI External Contracts Coordinator

SUBJECT : 4th Quarter Contracts

Dick:

1. The attached contract projects were previously approved for OGI during the second and third quarters. In order to take advantage of funds available due to cancellation of other projects, OGI proposes to increase the scope and hence, the dollar amount, of each project as follows:

25X1

2. The increased amounts [redacted] were included in the OGI Fourth Quarter Contract Status Report and do not affect the anticipated surplus of [redacted] in OGI contract funds.

25X1

25X1

3. Each of these proposed project expansions has merit and appears to be reasonable within the scope of overall effort required for project completion. In essence, we need to do the work and these expansions will fund increased efforts earlier.

SECRET

4. Your formal approval for these increases is required because each represents an increase of at least 25% above the originally approved amount.

25X1
